

Dear Senator _____

I urge you to take action to stop subcritical nuclear weapons tests. These tests raise the risk of another nuclear arms race while violating U.S. Treaty agreements.

Subcritical Nuclear weapons tests also continue to threaten the air, water and earth of Southern Nevada, and eventually the world.

Oppose legislation which would increase funding for these nuclear programs which help spread nuclear weapons throughout the world- now is the time to put nuclear weapons aside and work for peace.

Sincerely,

put stamp here

The Honorable _____

United States Senate

Washington, DC 20510
